

# INVITATION

National Small Stock Growth Test with NAMPO/  
ALFA and the University of Stellenbosch

## ABOUT QPRO FEEDS

QPro Feeds (Pty) Ltd (QPro Feeds), a 100% subsidiary of VKB Agri Processors (VKB), is an animal feed manufacturing business with its core activities in the Eastern Free State. The company has animal feed plants in Vrede and in Bethlehem and distributes products mainly in the Eastern Free State, Eastern Cape and Limpopo, but also to other parts of the country.

The QPro Feeds Bethlehem plant is a multi-species feed mill with a capacity of about 8 000 tons per month depending on the product mix.

The QPro Feeds Vrede plant is a monogastric feed mill with a capacity of 13 000 tons per month. The mill currently produces predominantly broiler feed, but also supplies broiler breeder, layer and pig feed to diverse external clients.

As a result of the excellent and consistent results of the feed produced by both the QPro Feed plants, the company has established itself as a supplier of choice within the South African feed industry.

Through innovation and properly managed controls and monitoring systems, we strive to add the best possible value to our clients' businesses.

## HOW DO WE DIFFERENTIATE OURSELVES?

### WE ADD VALUE FOR OUR CUSTOMERS

- Our products enable our customers to compete with the best in their industry.
- Our technical and marketing staff complement our products through proper personalised support and sharing their knowledge with customers.

### WE NEVER STOP LOOKING FOR BETTER WAYS OF DOING THINGS.

- We are committed to continuous improvement.
- Our broiler products are measured and evaluated under commercial circumstances as well as in test facilities, while making adjustments to the design of products to be on the forefront of performance.
- We are constantly evaluating our processes and equipment to stay ahead regarding manufacturing efficiencies and service delivery.

**ANIMALS**

## WE VALUE...

### INTEGRITY

- Our products deliver what we claim they do.
- We stand by our products through thick and thin.
- We strive to be reliable, trustworthy and consistent.

### THE CUSTOMER

- We realise that our business has no future without our customers.
- We will always foster and protect good customer relationships.
- Our reason for existence is to add value for our shareholders and to our customers' businesses.

### CLIENT SERVICE

- We never stop looking for ways to improve our service to our customers.
- Our aim is to draw customers not only through good quality feed but by the experience when doing business with us.

### OUR PEOPLE

- We believe a motivated, positive, committed and competent management team and workforce are the core of a successful organisation and the spring from where creativity and innovation flow.

## OUR AFFILIATIONS, PARTNERSHIPS AND SUPPORT

- We see our affiliation with our mother company VKB, currently one of the most progressive and successful agriculturally based companies in South Africa, as a competitive edge that brings not only job security to our employees, but also comfort to our customers that they will not be let down.
- Our close relationship with our sister company GFC provides the opportunity to properly measure and evaluate the performance of the feed in excellent facilities under proper management conditions.
- We make use of some of the best nutritionists in the country as technical support to develop new products, perfect existing ones and use the latest nutritional technology available in the world.

# INVITATION TO SMALL LIVESTOCK ASSOCIATIONS FOR PARTICIPATION IN THE QPRO FEEDS NATIONAL SMALL LIVESTOCK GROWTH TEST @ NAMPO/ALFA 2020

QPro Feeds National Small Livestock Growth Test at NAMPO/ALFA 2020 in collaboration with Stellenbosch University invites all small livestock breeders associations of SA to be part of the first national growth test. We would like for all small livestock breeds in SA to participate to receive the best possible results and data in the industry.

The various breeders' associations can nominate breeders to take part in this program. Breeders associations also determine the age of the rams that are included. However, all the rams of a specific breed must be the same age.

- These rams do not need to be registered, but must be purebreds, i.e. no crossbreeds. (Breeders associations themselves need to confirm breed purity.)
- 10 rams per association can be enrolled, preferably representative of at least three

## Breeders.

- Transport to and from the test station in Stellenbosch, as well as the insurance on the animals, is the responsibility of the various breeders.

## Dates

- Rams must be dropped off at the experimental farm of Stellenbosch University in Stellenbosch: 21 & 22nd August.
- Rams must be collected again at the university's experimental farm on 16th October 2020.

## Entries

- Entries must be done on the official entry forms which can be obtained from Chéri-Lynn - SteynC2@ufs.ac.za
- Indemnity forms and animal health declarations for each animal must be sent in before it will be allowed to be unloaded.

## Indemnity

- QPro Feeds, Nampo/ALFA and Stellenbosch University will do everything in its power to ensure the safety of the animals, but cannot accept responsibility for any losses.

## Information and contact:

All forms and information can be obtained from Chéri-Lynn Steyn (SteynC2@ufs.ac.za or 071 688 9707).
